

SMART LOGISTICS

Work with industry professionals

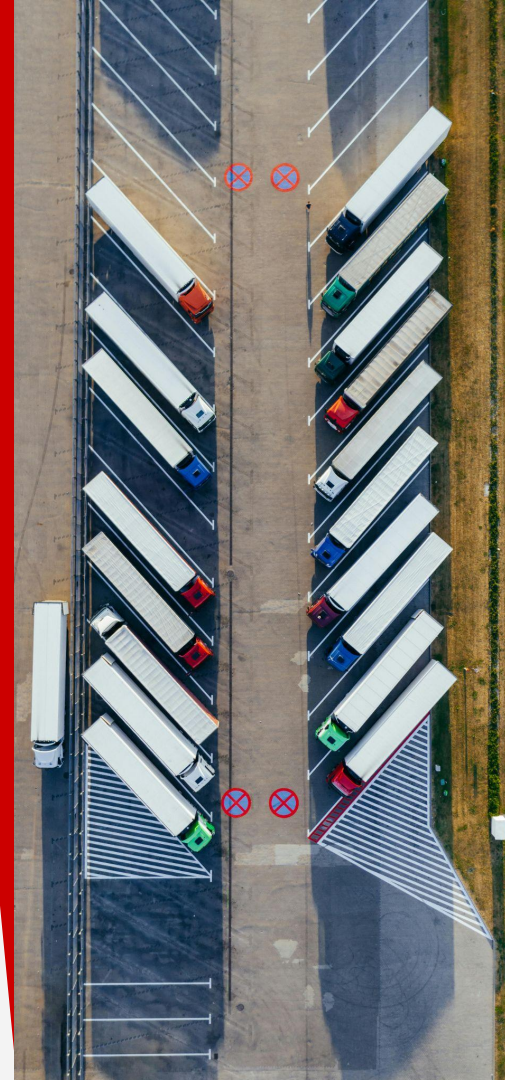

Company Introduction

About us: Logitrans is a **trustworthy partner on the logistics and transport service market**, boasting an experience of more than **18 years** and an extensive international network.

Specializing in full-fledged **road, water and air freight transport solutions**, the company offers its clients quick, efficient and custom-made services, adapted to each business sector. We provide transport and logistics services tailored to your specific requirements, while making sure that each project is professionally and flexibly managed.

Our smart logistics makes lives easier

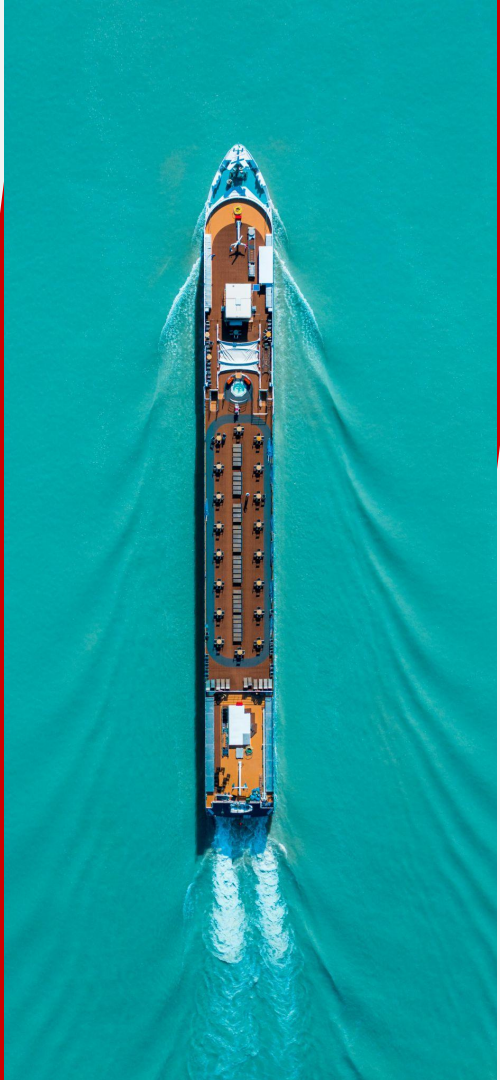

Logitrans's **SERVICES**

ROAD TRANSPORT

- **Palletized and floor loaded freight shipments**, including dangerous (ADR), large-volume and out-of-gauge cargo.
- Less than **truckload (LTL)** or **full truckload (FTL)** options.
- Specialized solutions for **refrigerated, ADR and out-of-gauge cargo shipments**.
- **Diversified fleet:** sprinters, standard trucks, mega trucks and trailers, ready to cater for any logistics needs.

Regardless of the cargo type or of the shipment complexity, we will always find the solution that best suits your needs.

WATER FREIGHT TRANSPORT

- Logitrans manages the transport of goods via **trustworthy sea lines**, covering the main international trade routes.
- We offer **full container load (FCL)** and **less than container load (LCL)** shipments for various clients, with **full cargo monitoring** throughout the shipment.
- The guarantee of delivery times and flexible door-to-door shipment solutions.

AIR FREIGHT TRANSPORT

- Logitrans offers air freight transport solutions for **urgent deliveries and high-value shipments.**
- We collaborate with the main airline companies to guarantee **fast delivery times**, while guaranteeing efficient global logistics services.
- **Full custom clearing and handling services** in the main airports of the world.

Tailored logistics solutions

Storage and distribution

- Logitrans owns **secured warehouses**, strategically located, for an efficient distribution to target markets.
- We offer integrated **inventory management**, picking & packing, cross-docking and tailored packaging services.
- Smart inventory management **lowers cost** and improves the supply chain.

3PL Services (Outsourced logistics and shipment services)

- We fully manage the logistics for clients in various industries, handling both shipment, and supply chain management.
- Our 3PL solutions **allow companies to outsource their logistics** for enhanced efficiency in order to be able to focus on their core business.

Types of Shipment Projects

Starting with special projects, large-volume shipments to infrastructure-critical deliveries, we are your trustworthy partner, turning logistics into a key success driver.

In a field where every detail makes the difference, we provide tailored shipment solutions to cater for the most complex requirements.

- **Atypical and Complex Shipments**
- **Large-Volume Shipments**
- **Infrastructure Shipments**
- **Events and Trade Shows**
- **Dedicated Shipment for Unique Goods**
- **Tender-Based Shipments**

Logitrans showcases its expertise through the efficient management of these types of projects, while offering custom-made solutions to meet each logistics challenge.

Atypical and Complex Shipment Projects

Shipments that become projects due to their **specific requirements**.

Key elements:

- Require **detailed route planning**.
- Involve **obtaining special authorizations** and collaboration with the authorities. May include **police escorts** for shipment security purposes.

Large Volume Shipments

Shipments that are part of a wider project, with a clearly defined number of deliveries and a **specific completion term**.

Key elements:

- Clearly set number of shipments.
- Conducted **defined completion terms**.

Infrastructure Shipment Projects

Critical shipments for the implementation of **major infrastructure projects**, coordinated by a dedicated project manager.

Key elements:

- Involve **out-of-gauge cargo shipments** that require authorizations and rigorous planning.
- Contribute to large-scale projects, such as infrastructure developments, green energy initiatives or industrial construction projects.

Projects for Events and Trade Shows

Shipments dedicated to large-scale events, involving complex logistics and dedicated **management measures**.

Key elements:

- Shipment of **large and complex equipment + trade show booths**.
- Perfect timing and meticulous planning to observe the strict event terms.

Projects Involving Dedicated Shipment for Unique Goods

Customized shipments, where Logitrans becomes an **exclusive partner** and constantly manages goods with specific requirements.

Key elements:

- Exclusive management of the client's goods' shipment.
- **Detailed planning of routes** and repeated deliveries over a defined period of time.
- Transparent and clearly **set contractual terms**.

Tender-Based Shipment Projects

Shipments carried out based on **public or private tenders**, with strict specifications and precise terms.

Key elements:

- Involve complex, out-of-gauge or large volume shipments.
- Projects are often funded from **governmental, European or private funds**.
- Require compliance with the imposed technical and administrative requirements.

A photograph of chess pieces on a board. In the foreground, two black king pieces stand prominently, one on the left and one on the right. In the background, a white pawn is visible, slightly out of focus. The lighting is dramatic, with strong highlights and deep shadows. The background is a plain, light-colored surface.

Logitrans Perform

Innovation and efficiency in logistics

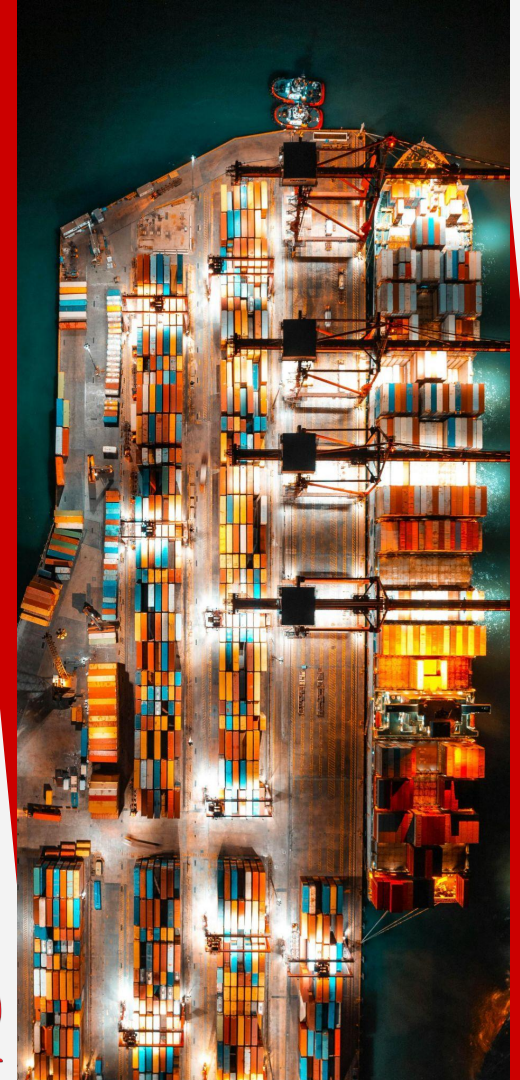

What is Logitrans Perform?

Logitrans Perform is our proprietary logistics operations optimization system, developed to maximize the efficiency and lower our clients' operational costs. This advanced system relies on meticulously defined processes and workflows, developed together with top logistics, IT, business marketing experts and psychologists specializing in operational efficiency.

How does it work? Logitrans Perform integrates complex data, predictive analytics and automated processes to streamline each stage of the logistics chain – from route and load planning, up to inventory optimization and shorter delivery times.

Client advantages:

- **Enhanced efficiency:** Through thoroughly defined and fine-tuned processes, Logitrans Perform helps mitigate operational errors and lower logistics costs.
- **Advanced technological support:** we integrate state-of-the-art IT solutions.
- **Shipment status** and vehicle location updates.
- **Partnerships with specialists in various fields:** We collaborate with logistics and IT experts, and even with psychologists specializing in operational efficiency to maximize logistics performance and ensure an optimum operational flow.
- **Customer satisfaction:** Our clients enjoy fast deliveries, lower costs and overall logistics flow improvements, due to the implementation of Logitrans Perform.

Why choose Logitrans?

Outsourcing services for the success of your business

- Logitrans acts as a strategic partner, supporting the growth and the efficiency of its customers' operations.
- We proactively offer logistics solutions tailored to your business goals.

Understanding and assessing specific needs

- A dedicated industry specialist assesses your logistics needs and offers route planning assistance.

Customized logistics solutions

- Each client benefits from a dedicated project manager, holding extensive experience in coordinating complex shipments.
- We offer flexible and adjustable solutions, meant to cater for your business' changes and developments

Constant support and communication

- We maintain transparent and proactive communication, adapted to each client's preferences.
- We stand by your side at every step of our collaboration, offering full support and prompt solutions to any logistic challenge.

Why choose Logitrans?

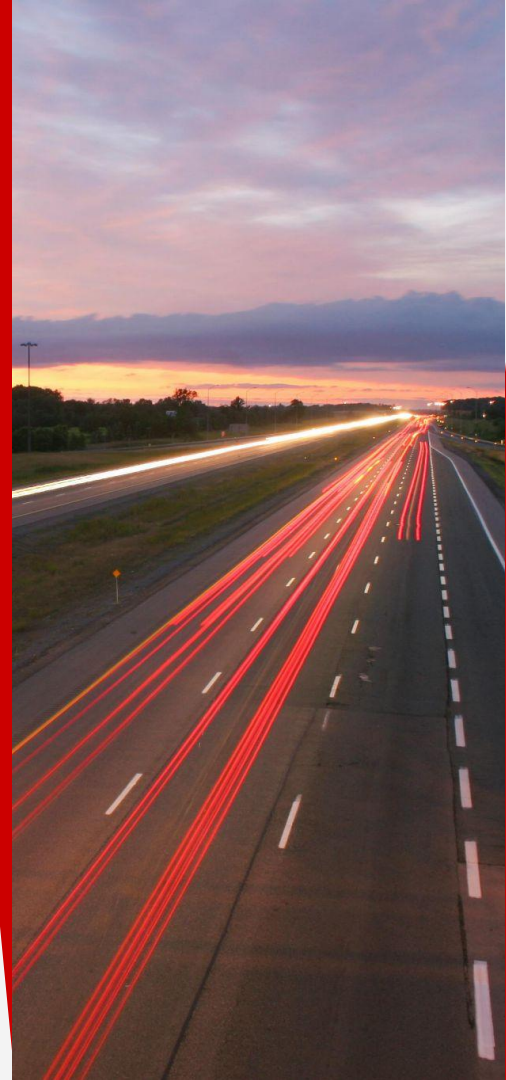

Flexibility and adaptability

- We adapt our services depending on the dynamics of your business, ensuring efficiency and continuity.
- Our solutions respond to ever changing needs, contributing to the streamlining of your operations.

Long-term partnership

- We build long-lasting relations, fuelled by trust and concrete results.
- Beyond delivering logistics solutions, we also help our clients optimize costs and streamline processes.

As a third-party logistics provider, **Logitrans** is a **strategic partner** dedicated to the growth of your business. Through a deep understanding of your needs, our **expertise and flexible solutions**, we actively contribute to your success. We focus on **optimizing costs**, streamlining processes and **building long-term partnerships** fuelled by trust and concrete results.

Time saved. More than just transportation.

In a world where speed dictates pace, and daily stress never seems to pause, **each minute matters.**

Logistics and transport may be time and energy-consuming challenges, but Logitrans is here to take over this responsibility. We take care of each detail of your shipment, so that you can rest assured, knowing that **everything is in good hands.**

While you focus on your core business, **we make sure that everything runs smoothly.** Whether it is about complex deliveries, out-of-gauge cargo or tailored logistics solutions, we make sure that each shipment reaches its destination safely and on time.

More than kilometres covered, we help you **gain time**, which you can spend where it really matters, be it your business, your team or your loved ones. Moreover, our prices are adapted to market realities and to the economic context, so that we are always able to offer efficient and balanced solutions.

Transport is not only about freight. It is about safety, trust and your reassurance.

We handle the hassle, so that you have time for what really matters.

Thank you!
